

Forest* Stewardship* Campaign*

Initial Summit January 11, 2019

Sonoma County Office of Recovery & Resiliency

Oct 2017 Wildfires

Extraordinary
magnitude and extent
of destruction

Dynamic, fast-moving
emergency was
accompanied by days-
long uncertainty and
anxiety

Sonoma County Recovery & Resiliency Planning

On **December 19, 2017**, the Sonoma County Board of Supervisors established the Office of Recovery & Resiliency with a mandate to develop a recovery and resiliency plan consisting of five strategic areas:

**Community Preparedness
& Infrastructure**

Housing

Economy

Natural Resources

Safety Net

Sonoma County Recovery & Resiliency Framework

On **December 11, 2018**, the Sonoma County Board of Supervisors approved the Recovery & Resiliency Framework, laying out represents the County's long-term vision for a resilient future.

COMMUNITY PREPAREDNESS & INFRASTRUCTURE

VISION

Sonoma County residents, communities, public and non-governmental entities are prepared to adapt and recover in a coordinated response when disaster strikes. Effective warning programs and systems provide emergency notifications to the whole community. Sonoma County ensures the safety and security of critical infrastructure, the continuity of financial and other information technology systems and ability to activate situational awareness programs and systems to support decision-making through disaster conditions.

NATURAL RESOURCES

VISION

Sonoma County's natural resources and working lands (i.e. soils, streams, groundwater, agricultural and biological resources) are healthy and productive. They are managed to support watershed and community resiliency and protect public health and safety, and contribute to enhanced ecological values, recreational opportunities, and economic vitality.

Mission of the campaign...

- **increase the pace, scale and effectiveness** of management on public and private forest lands to reduce wildfire hazards, benefit life safety and ecosystem services, and improve landscape resiliency.

- foster a 'network of networks' to **pursue aligned and connected efforts** at the local, regional and state scales.

Today's aims

- Review shared long-term vision, commitments and priorities
- Discuss solutions and pathways appropriate for the magnitude of effort and high level of urgency
- Raise awareness about government policies, regulations, programs and funding, as well as private sector and community initiatives
- Identify key players, actions, needs and critical steps forward

Agenda

Start	MORNING
